SELF LOADING COMPRESSOR CRAWLER CARRIER SPECIFICATIONS

- Engine: 6CTA, Cummins 140kw
- Hydraulic Pump: 147 cc/rev (260 ℓ/min) LS
- Maximum Operating Pressure: 280 Bar (Relief setting: 300 bar)
- Oil Filtration: Pressure Filter, 9 µm Absolute
- Aux Pump: 19 cc/rev (30 ℓ/min)
- Maximum Operating Pressure: 40 Bar (Relief setting: 100 bar)
- Oil Filtration: Pressure Filter, 10 µm Absolute
- Hydraulic Tank Capacity: 600 litres
- Hydraulic Oil: ISO 68
- Overall Size: 7440x2600x3350 (LXBXH)
- Lifting Height: 1200mm (Below Tracks)
- Overall Weight (wet): 22000 kg
- Diesel Tank Size: 1000 litres
- Control Voltage: 24V DC
- Tracks: ITR450
- Speed: High Range 0-4km/h / Low Range 0-2km/h
- Max Inclination: 30 °
- Compressor: IR XXHP 1270 35 bar unit
FEATURES

- Self Loading and offloading on and off low bed truck
- Robust Heavy Duty Slide Out Outriggers with integrated load holding valve
- Swivel ball joint outrigger feet
- Proportional track drive control
- Remote control of outriggers from cab
- Local Hand control of track drive & outriggers
- Efficient Load Sensing Axial Piston Pump
- Good Filtration with clogging indicators
- Analogue Pressure & Temperature Sensors
- State of the art control panel
- Warning and alarm indication of hydraulics & engine
- Roll cage cabin with seat belt for operator
- Access ladders
- Dynamic Braking & Park Brake
- Head Lights, Brake Lights & Indicators
- Rear View Mirrors
- Reverse Siren & Hooter
- Steel Tracks (Rubber Pads optional)
- Tie down lugs
- Competitively Priced & Good availability
- Off the shelf components
- Guaranteed After Sales Service & Back Up Support
